

One Health

2 - 4 May 2017

Sponsorship Opportunities

Esplanade Hotel Fremantle, Western Australia

Welcome

It is with great pleasure that we invite you to consider sponsoring the 3rd Science on the Swan Conference being held in Fremantle, Western Australia from 2 to 4 May 2017.

Science on the Swan is initiated and run as part of the Western Australian Health Translation Network by all five of WA's universities (The University of Western Australia, Curtin University, Murdoch University, Edith Cowan University and The University of Notre Dame) the Harry Perkins Institute of Medical Research, the Telethon Kids Institute, the key teaching and research hospitals and the WA Government through the Department of Health and the Office of Science.

Seventy five percent of newly emerging diseases in the last 30 years are the result of zoonotic (human – nonhuman) transmission. Population growth, climate change, lifestyle shifts and rapid transportation are profoundly affecting global disease profiles and acquisition risk. 'One Health' is an integrated effort of multiple disciplines to understand how these factors interact to increase the risk of emergent diseases that affect us all on a global scale.

One Health seeks root cause understanding and effective solutions to emergent infectious and acquired diseases through, fundamental stem cell and regenerative medical science, public health and environmental remedies, working synergistically to advance the health of all species and the varied places in which they live.

The conference and associated workshops provide an opportunity to meet the global research leaders in this important 21st century field. The program includes globally recognised speakers and many of Australia's top One Health researchers working in partnership with industry to deliver effective health outcomes for our world.

We encourage you to take this opportunity to be involved in this exciting Conference, and look forward to welcoming you to this event.
