

**Christoph Hitzenberger, PhD, Editor-in-Chief, Biomedical Optics Express**

**Bio:**

Christoph Hitzenberger received his PhD in Physics from the University of Vienna in 1983. In 1987, he joined the Institute of Medical Physics, University of Vienna, where he started to work in the field of biomedical optics. Presently he is Professor of Medical Physics and Vice Chair of the Center for Medical Physics and Biomedical Engineering, Medical University of Vienna. He is one of the pioneers of low coherence biometry and optical coherence tomography (OCT), demonstrating the first heterodyne low coherence interferometer for ocular biometry in 1990 and the first application of spectral domain OCT in 1995. He is author or coauthor of ~ 150 peer reviewed scientific publications with a total of nearly 20,000 citations (Google Scholar). He is Fellow of OSA and SPIE and presently serves as Editor-in-Chief of Biomedical Optics Express.
